

## Master Plan Sub-Areas

**MOUNTAIN BIKE CLUBS**

Mountain biking, for some, has become a passion. Communities can harness this passion by forming a partnership with local mountain bike clubs to take advantage of the resources they offer. Mountain bike trails throughout the Country are often built, managed, and maintained by these local clubs for the benefit of all park visitors

### AREA E **Mountain Bike Park**

This area's woodlands are in need of restoration due to some recent tree clearing and other impacts and the presence of non-native invasive species. Alternatively, this area would be suitable for a mountain bike course that could be developed in concert with the reforestation effort. There are some differences in terrain; however it would most likely be considered intermediate terrain with introduction of some challenging features. In addition to the mountain bike trails, the area should include a building containing restrooms, bike rentals, and storage for maintenance equipment as well as adequate parking. Some of the trails could be designated for multiple uses, particularly those that connect with adjacent neighborhoods.
